

# Camera Transitions - Corner Spin

Hello and thank you for purchasing our product! We highly recommend you to read through this guide before using the package.

It is extremely easy to use:

- Import **Camera Transitions - Corner Spin.aep** to your project in After Effects
- You can see all the available transitions in the Project window, all of them can be used and adjusted in the same manner
- Drag & drop a transition on top of the footage, so that the Cut marker is at the frame where the transition should happen
- Turn on the **Collapse Transformations** switch on the transition layer
- Open the transition composition and select **an orange \_controller** layer to adjust the available parameters
- Resize the transition composition so that it fits the original composition resolution

This package is a part of the [Transitions Bundle](#), purchase it and get much more transitions to use!
