

Transitions - Zoom

Hello and thank you for purchasing our product! We highly recommend you to read through this guide before using the package.

It is extremely easy to use:

- Import the ***.prproj** files into your Premiere Pro project.
- Open a transition sequence.
- Select all the layers included into the transition and copy them.
- Paste them to the sequence you want to add the transition to.
- Move them across the timeline so that the cut is in the correct place.

This package is a part of [Pitch](#), purchase it and get much more elements to use!
